

Postlaryngectomy voice rehabilitation with voice prostheses

Prof. Dr. Kai Johannes Lorenz, Klinik für Hals-Nasen-Ohrenheilkunde, Kopf-Halschirurgie, Bundeswehrkrankenhaus Ulm

UNI-MED Science, 1st edition 2017, 141 pp, 136 illustrations, Hardcover, ISBN 978-3-8374-1549-0, Euro 39,80

ePDF-version: ISBN 978-3-8374-5549-6, Euro 39,80

This book reviews, for the very first time, the causes of, and treatment options for, complications after surgical voice rehabilitation using voice prostheses.

The authors, all with many years' experience in this field and with considerable involvement in developing treatment strategies, offer a comprehensive, practice-oriented review of the current state of knowledge on this issue and thereby provide a valuable guide for the management of complications - one that should be available in every ENT clinic.
